## PROFILE

I am Rishabh Upadhyay and I am pursuing my B Tech from Institute of Engineering and Management, Kolkata, India. I have worked hard in my education and now I am ready to apply my knowledge into practice. While I don't have any real-life work experience, I've had a lot of exposure to the coding environment. Now I want to contribute in project where I can apply whatever knowledge I have and having said that I can get an idea about how a software industry works. This is why I want to take this opportunity. Thanks
